

Medical Resources for Adoptive/Guardianship Families

Many adoptive/guardianship children live with medical needs.
This list is a small sample of resources that might be helpful for your family.

[NORD \(National Organization for Rare Disorders\) - rarediseases.org](http://rarediseases.org)

NORD is a patient advocacy organization dedicated to individuals with rare diseases and the organizations that serve them.

[CDC \(Centers for Disease Control and Prevention\) - cdc.gov](http://cdc.gov)

CDC is the nation's leading science-based, data-driven, service organization that protects the public's health.

[Adoption Medicine Clinic at University of Minnesota - adoption.umn.edu](http://adoption.umn.edu)

The Adoption Medicine Clinic University of Minnesota is an outpatient clinic serving families with children adopted domestically, internationally, and in foster care.

[Child Welfare Information Gateway - childwelfare.gov](http://childwelfare.gov)

Child Welfare Information Gateway promotes the safety, permanency, and well-being of children, youth, and families by connecting child welfare, adoption, and related professionals as well as the public to information, resources, and tools covering topics on child welfare, child abuse and neglect, out-of-home care, adoption, and more.

[International Adoption Program at Children's WI - childrenswi.org](http://childrenswi.org)

Children's is the only independent healthcare system dedicated solely to the health and well-being of children. In Milwaukee and throughout the state, we provide kids and their families a wide range of care and support.
